

# Xuedong Shang

## Curriculum Vitae

### Education

- 2017–2021 **PhD in Computer Science**, *Inria*, France  
My PhD research focuses on sequential decision making with/without side information. In particular, I'm interested in online learning with partial feedback, a.k.a. multi-armed bandits (a particular case of reinforcement learning) and its applications. Typical applications include recommendation systems, portfolio management, hyper-parameter optimisation for machine/deep learning algorithms, etc. Also interested in (deep) reinforcement learning, time series prediction/clustering, optimal transport for natural language processing, etc.  
**Advisors:** Emilie Kaufmann (CNRS), Michal Valko (DeepMind)  
**Title:** Adaptive Methods for Optimization in Stochastic Environments
- 2015–2017 **Master of Computer Science**, *ancien élève de l'École normale supérieure de Cachan (Rennes Campus)*, France  
**Courses:** machine learning & related applications (cv, nlp, signal processing, etc.), distributed computing, cloud computing and big data, advanced algorithmics, parallel programming, artificial intelligence, intro to statistical learning, operating systems, databases, bioinformatics, signal processing, information theory, principles of computer network.
- 2014–2015 **Bachelor of Computer Science**, *ancien élève de l'École normale supérieure de Cachan (Rennes Campus)*, France  
**Courses:** algorithmics, theory of computing, object-oriented programming, functional programming, computer architectures and systems, cryptography, image processing, intro to computer network.
- 2013–2014 **Gap Year**, *engaged with volunteer work*, AOE  
**Organization:** Eduinfinity, a subtitle translation group for MOOC courses.
- 2012–2013 **Bachelor of Mathematics**, *Université Pierre et Marie Curie (Paris VI)*, France  
**Courses:** probability & statistics, measure theory, topology, differential calculus, complex analysis, stochastic process, numerical analysis, abstract algebra.
- 2008–2011 **Mathematical Preparatory Class**, *Lycée Henri Poincaré*, Nancy, France  
**Courses:** post-secondary preparatory classes preparing for highly selective entrance examinations to the French Grandes Ecoles, including intense courses on mathematics, physics, chemistry, computer science and philosophy.
- 2005–2008 **High School**, *High School Affiliated to Fudan University*, Shanghai, China

### Training

- July 2019 **Reinforcement Learning Summer School**, Lille, France  
**Courses:** stochastic bandits, structured bandits, bandits for optimization, recommender systems, basic statistics, neural networks, Markov decision process, intro to RL, RL for healthcare, policy gradient, RL for energy, RL good practice, deep RL, exploration in RL, RL for video games, safe RL, Monte Carlo tree search, multi-agent learning, RL for neuroscience, robotics.

25, rue de Tournai – 59800 Lille

🐦 AbsolutSamuel • 🌐 xuedong

Jan 2019 **Machine Learning Summer School**, Stellenbosch, South Africa

**Courses:** probabilistic thinking, variational inference, causality, deep generative models, kernel methods, reinforcement learning, optimal transport, Gaussian processes, causal inference, dynamic interaction networks, machine learning for conservation, statistical relational learning and probabilistic (logic) programming, Markov chain Monte Carlo, data compression, etc.

---

## Publications

### Conference Papers

- ICML 2021 **UCB momentum Q-learning: Correcting the bias without forgetting**, in Proceedings of the 38th International Conference on Machine Learning  
Pierre Ménard, Omar Darwiche Domingues, **Xuedong Shang** and Michal Valko
- ICML 2020 **Gamification of pure exploration for linear bandits**, in Proceedings of the 37th International Conference on Machine Learning  
Rémy Degenne, Pierre Ménard, **Xuedong Shang** and Michal Valko
- AIStats 2020 **Fixed-confidence guarantee for Bayesian best-arm identification**, in Proceedings of the 23rd International Conference on Artificial Intelligence and Statistics, Palermo, Italy  
**Xuedong Shang**, Rianne de Heide, Emilie Kaufmann, Pierre Ménard and Michal Valko
- ALT 2019 **General parallel optimization without metric**, in Proceedings of the 30th International Conference on Algorithmic Theory, Chicago, USA  
**Xuedong Shang**, Emilie Kaufmann and Michal Valko

### Software

- GitHub Repository **rlberry - A reinforcement learning library for research and education**  
Omar Darwiche Domingues, Yannis Flet-Berliac, Edouard Leurent, Pierre Ménard, **Xuedong Shang**

### Workshop Papers

- ICML 2019 - AutoML **A simple dynamic bandit algorithm for hyper-parameter tuning**, in 6th ICML Workshop on Automated Machine Learning, Long Beach, USA  
**Xuedong Shang**, Emilie Kaufmann and Michal Valko
- EWRL 2018 **Adaptive black-box optimization got easier: HCT only needs local smoothness**, in 14th European Workshop on Reinforcement Learning, Lille, France  
**Xuedong Shang**, Emilie Kaufmann and Michal Valko

### Preprints

- 2022 **Safe best-arm identification in linear bandits**, submitted  
**Xuedong Shang**, Igor Colin and Merwan Barlier
- 2021 **Stochastic bandits with vector losses: Minimizing  $\ell^\infty$ -norm of relative losses**, submitted  
**Xuedong Shang**, Han Shao and Jian Qian
- 2020 **Simple (dynamic) algorithms for hyper-parameter optimization**  
**Xuedong Shang**, Emilie Kaufmann and Michal Valko
- 2016 **Time series clustering**  
Dominique Barbe, Alexandre Debant and **Xuedong Shang**

## Experience

### Vocational

- June 2021–  
December  
2021 **Quantitative Research Internship (Off-Cycle)**, *SMAD, Barclays*, London, UK  
Worked on the eTrading/market-making credit desk.
- October  
2017–March  
2021 **PhD Researcher**, *Sequel, Inria Lille-Nord Europe*, Lille, France  
Worked on multi-armed bandits, automated machine learning and reinforcement learning.
- March  
2020–August  
2020 **Research Engineer**, *Noah Ark's Lab*, Paris, France  
Worked on automated machine learning, in particular hyper-parameter optimization and safe linear bandits, working with Balázs Kégel (**Huawei Noah's Ark**) and Igor Colin (**Huawei Noah's Ark**).
- February  
2017–July  
2017 **Research Internship**, *Sequel, Inria Lille-Nord Europe*, Lille, France  
Hierarchical Bandits for "Black Box" Optimisation and The Monte-Carlo Tree Search, under the supervision of Emilie Kaufmann (**CNRS**) & Michal Valko (**Inria, Google DeepMind**).
- May  
2016–July  
2016 **Research Internship**, *Yamamoto-Cuturi Lab., Graduate School of Informatics, Kyoto University*, Kyoto, Japan  
Optimal Transport Geometry for Sentiment Analysis, under the supervision of Marco Cuturi (**ENSAE, Apple**).
- May  
2015–July  
2015 **Research Internship**, *Magnet, Inria Lille-Nord Europe*, Lille, France  
Personalized Recommender System, under the supervision of Marc Tommasi (**Inria**).
- June  
2012–July  
2012 **Research Internship**, *CNRS Vérimag*, Grenoble, France  
On the Generation of Positivstellensatz Witnesses in Degenerate Cases, under the supervision of David Monniaux (**CNRS**).

### Others

- May  
2019–May  
2020 **Secretary-General**, *Union des étudiants et chercheurs chinois à Lille (UCECL)*, Lille, France
- June  
2018–May  
2019 **Member**, *Publicity Department, Union des étudiants et chercheurs chinois à Lille (UCECL)*, Lille, France
- July  
2013–August  
2013 **Summer Internship**, *Corporate Banking Department, Industrial and Commercial Bank of China*, Shanghai, China
- August 2012 **Summer Internship**, *International Business Department, Agricultural Bank of China*, Shanghai, China

---
